### SCENIC ATTRACTION

- Scenic Beauty and Prefectural Natural Park "Tanesashi Coast"  
This coast provides an attractive view from incredibly shaped large and small rocks, expanded grass, and glittering white sand. The total length of this coastline is about 12 kilometers. There are about 700 kinds of precious wild plants here.
- Tanesashi Natural Grass  
This coast is covered with natural grass. Part of it provides some area as a campsite.
- Yodonomatsubara  
Pine grove continues from Tanesashi Natural Grass to Fukakubo fishing port. You can have the most splendid view at any other place in the promenade through pine trees.
- Shiroiwa  
This rock is called "Shiroiwa (white rock)" because droppings of sea cormorants turn to white. Its another name is "Myojin iwa".
- Shirahama Swimming Beach  
This beach is the end of Oosuka Coast which has 2 Kilometer-long sandy beach. It is opened from July to August every year and crowded with people.
- Ashigezaki Observatory  
They say that this observatory was the place to be set up a radar by Japanese Army in the World War II. You can see the magnificent view of the Pacific Ocean and the coastline.
- Please follow the guidepost and you can enjoy the view of Tanesashi Coast.
